Definitions

Training and assessment strategy means a framework that guides the learning requirements and the teaching, training and assessment arrangements of a VET qualification. It is the document that outlines the macro-level requirements of the learning and assessment process.¹

Assessment means the process of collecting evidence and making judgements on whether competency has been achieved, to confirm that an individual can perform to the standard expected in the workplace. This is expressed by the relevant endorsed industry/enterprise competency standards of a Training Package or by the learning outcomes of a VET accredited course.¹

Certificate 3 Guarantee (C3G) Funding.

The Certificate 3 Guarantee aims to help Queenslanders without a post-school qualification to gain one.

The Certificate 3 Guarantee subsidises your vocational education and training (VET) course fees to help you complete your first post-school certificate qualification.

It is targeted at certificate III level qualifications because they are considered the entry-level qualification most often needed to gain employment in many industry sectors.

The Certificate 3 Guarantee means that instead of paying for the full cost of a training course, you will pay a reduced amount to make the training more affordable and accessible.

Eligibility Criteria

To be eligible for the Certificate 3 Guarantee Program participants must:

- Be 15 years or older at the time of commencement
 - Have completed secondary school or are no longer attending school
 - Be a permanent resident of Queensland i.e. Australian Citizen or Australian Permanent Resident or a New Zealand Citizen permanently residing in Queensland
 - Not hold or currently be enrolled in a Certificate III or higher qualification from 1st July 2013.
- Exemptions apply to Certificate III qualifications completed whilst at secondary school.

Please Note: Evidence to confirm eligibility will be required

Employment status does not matter and nor is there any minimum education requirement, only the standard entry requirements for the course of study.

Note: *Eligible individuals must understand that the entitlement under the Certificate 3 Guarantee is for one Government subsidised training place in a funded certificate III qualification. It is very important that you take the time to consider and compare your training options and costs, before signing an enrolment form or committing to a course of study which will use up your entitlement.*

Entry Requirements

There are no minimum employment requirements for participants to meet, however, Certificate II in Hospitality requires 12 industry placement shifts, which will be arranged for those students who are not currently working in the Hospitality Industry.

For further information, please refer to the Course Outline.

For further information, go to www.usi.gov.au.

DELIVERY OF THE COURSE

The Certificate II in Hospitality is delivered by on-the-job training, off-the-job training, and by the 'self paced' method of learning, which allows you greater flexibility in choosing the times you study and the time it takes you to complete the course. Evidence of 12 shifts completed within the Hospitality workplace environment is essential to the completion of this certificate.

The final decision about satisfactory demonstration of performance outcomes are made as a joint decision by the Supervising Registered Training Organisation (SRTTO) and the employer prior to the final judgement of competence by the assessor.

Students are able to request tutorials and one on one tutoring and /or mentoring by discussing their needs with a trainer or assessor. Times and location for accessing these services will be by mutual agreement and allows students to balance their personal commitments with their study and training needs.

Some units have pre-requisites that must be completed prior to the undertaking of another unit. The course outline indicates which units have pre requisites and the trainer and assessor will place these in the training sequence on the students training plan and record book.

Training and assessment techniques or tools used to gather evidence assessment.

Throughout training, students will develop new skills and knowledge. Combined with their duties and activities in the workplace students, over time, gain recognition of the skills they demonstrate.

All pre-requisites for accredited units must be trained and assessed prior to the start of training for the required unit. Students must gain competency in the pre-requisite unit prior to the start of training for the unit with the pre-requisite.

Assessors have flexibility (according to the requirements of the Training Package and units of competency) in selecting which techniques or tools they will use to gather sufficient evidence, in a range of contexts, to make a decision (including RPL).

Note: this is a guide only. Further detail can be found in the Staff Assessment Guidelines:

An assessment tool includes the following components:

- The context and conditions for the assessment
- The tasks to be administered to the candidate
- An outline of the evidence to be gathered from the candidate

- The evidence criteria used to judge the quality of performance (i.e. the assessment decision-making rules)
- The administration, recording and reporting requirements

The following matrix gives a general overview of some of the techniques or tools that will be used to gather evidence towards competency to enable judgments to be made about students' competency in each unit.

Key to techniques:

1. Demonstration / Stimulation
2. Project / Research /Interview
3. Case Studies
4. Written Question & Answer
5. Third Party Assessment

Credit Transfer (CT)

Credit Transfer is supplying the documentation to support the skill and knowledge you have previously gained in transfer of supported documentation. This means that you don't have to complete a competency again if you have already completed it previously.

Trainers will need to review if your accredited qualification or recognised units are still within a current training package or are equivalent to the current training package or units. Discuss your previous educational qualifications with your trainer to see if this is a possibility for you.

If you have completed an accredited qualification or recognised units of study with a Registered Training Organisation, you may be eligible for a credit transfer.

Note: this is a guide only. Further detail can be found in the Student Information Handbook.

Recognition of Prior Learning (RPL)

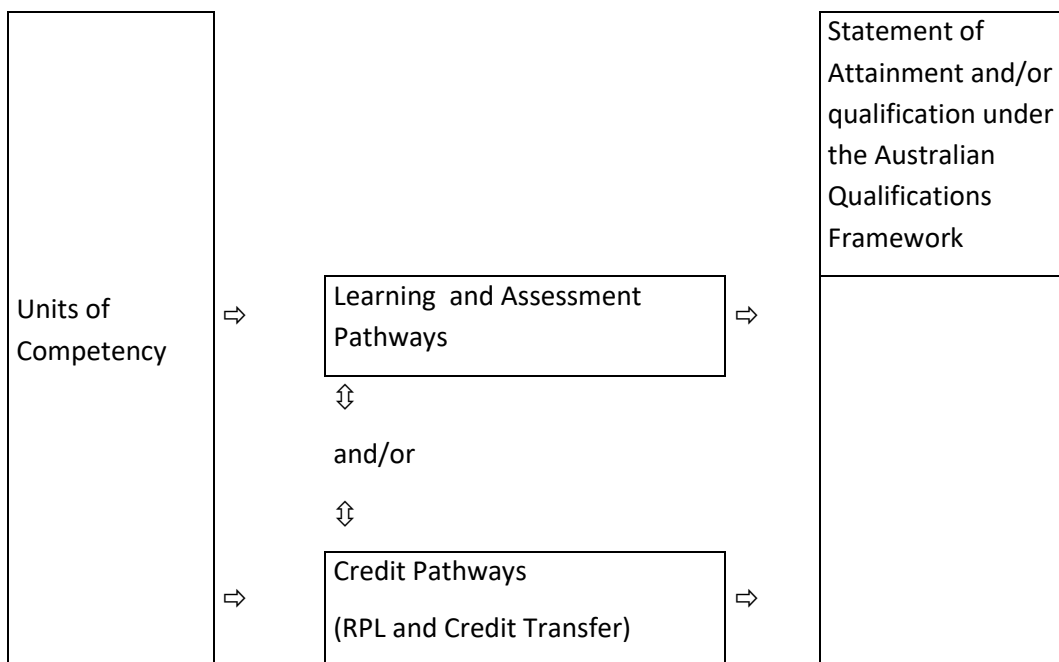

The objective of the Recognition of Prior Learning (RPL) for the Vocational Education and Training system is to ensure that an individual's prior learning achieved through formal and informal training, work experience or other life experiences is appropriately recognised.

RPL assessment collects evidence of learning that has occurred outside the formal education and training system. The RPL process is a more personal process involving the assessor collecting evidence and aligning the evidence to the requirements of the accredited course or training package qualification. Students may request an RPL Application Form for more than one unit.

Note: this is a guide only. Further detail can be found in the Student Information Handbook.

What RPL is Not!

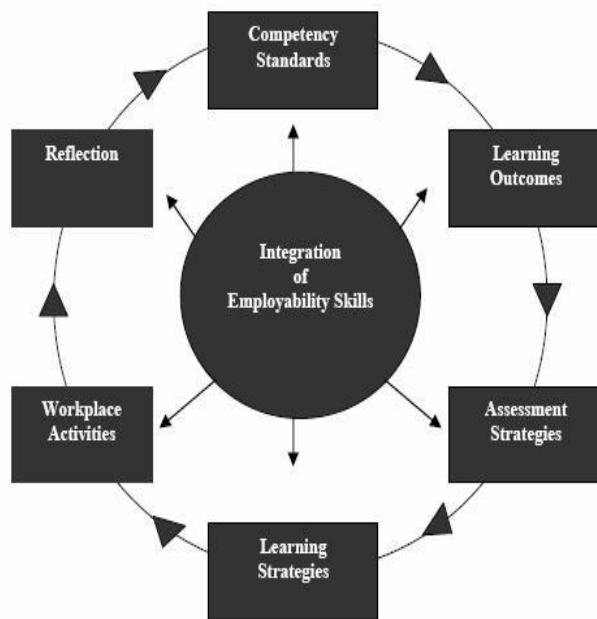

Using the RPL process is not an easy way to get a qualification. It is not a matter of time served or amounts of experience but the specific and relevant learning which is assessed according to the prescribed Competency Standards. Applicants need to be committed to supporting their case by locating and providing suitable evidence and documentation as required by the Careers Training Centre.

ref: www.training.gov.au – SIT training package

Each of these assessment pathways leads to full recognition of competencies held – the critical issue is that the candidate is competent, not how the competency was acquired.

Employability skills are integral to achieving workplace competency. Delivery and assessment of the training and assessment will be undertaken in an integrated and holistic way, as represented diagrammatically below.

TRAINING AND STAFF

Trainers and assessors are qualified, and have a minimum of 5 years industry experience, Minimum TAE40110 Certificate IV in Training and Assessment, Current Blue Card and have completed a Fit and Proper Person Form. All experience and qualifications are verified and copied are placed on their staff files. A staff profile and units of competency are reviewed annually to assess skills and knowledge to ensure it remains current and accurate. Professional development to maintain currency in training and assessment as well as industry experience is planned and regularly scheduled with all staff at the annual performance review.

Vocational Placements

Vocational placements are required under the Vocational Education, Training and Employment Act 2000, and allows a student to be placed in a work environment to provide the student with practical training and experience that is required under, and is an assessable part of, the student's course. A vocational placement is generally an appropriate option for students who would not otherwise have sufficient access to the facilities, equipment and range of work necessary to develop and consolidate their skills to the level required of the course/qualification, for example, students not employed in the vocational area in which they are studying and students undertaking their course/qualification through an institutional pathway.

All students are required to attend vocational work placements if not engaged as an employee, within a variety of local tourism and hospitality related businesses that support vocational placements for students.

Businesses that support vocational placements for Careers Training Centre:

- Rainforestation Nature Park, Kuranda
- The Wildlife Habitat, Port Douglas
- The Cairns ZOOM & Wildlife Dome, Cairns
- Tropic Wings Cairns Tours

All trainers and assessors have access to the units of competency, assessment guidelines and qualification packaging rules from the training package at web site: <http://training.gov.au/>

Careers Training Centre has the resources of the CaPTA Group of Companies to draw upon as a major local employer and industry tourism leader.

CONTINUOUS IMPROVEMENT

Continuous improvement is based upon assessment validation as per Standards for Registered Training Organisations (RTOs) 2015.

Internal review procedure

Student feedback is collected and analysed and information reported to the Management Team. Feedback forms are analysed monthly and yearly and reported to the Chairman as part of the monthly reporting structure. This feedback is reported back to trainers and assessors as part of the continuous improvement process monthly and used in the annual performance review for all Careers Training Centre trainers and assessors.

- Feedback is ongoing and consistent and students are encouraged to also
- Student career pathways are documented in the Student Handbook

Student Data Storage and Security

All information is managed and held by Careers Training Centre and no third party has access to student information unless the student authorizes the release of this information or the information is released under legislative requirements as advised in student hand book and sign up procedures.

Information is secured by password security and backup information is stored in an encrypted format for student protection.

Student Feedback

Your Feedback is really important to us!

We really appreciate your feedback. Let us know what is important to you. We have two (2) feedback forms to be completed by students:

1. AQF Survey

On completion or withdrawal from your Certificate III in Captive Animals, Careers Training Centre has an online link for students and employers to complete their AQTF surveys. You may enter your feedback through this link. <http://mastersit.com.au/vidatek/wp/index.php/learner/rto/capta>. You can also contact us on Email careers@capta.com.au or on our Website and download a feedback form: www.careerstrainingcentre.com

2. CTC Student Feedback

You can complete this feedback form online through this link https://docs.google.com/forms/d/1oLZWCcN_XN_NuoQj-jJ18YWWmAlV3adnQv9nBWxXilc/viewform?c=0&w=1

If you are concerned about something or wish to identify things we can change or improve a feedback form or questionnaire can be completed. We will ask you several times during the time you spend completing training with us to give us formal feedback. What was good / what was not? Feedback and questionnaires are part of maintaining consistency and best practices for us, so we take them very seriously. We encourage all students to provide feedback and have feedback forms available for students and employers to complete.

What is assessment validation?

Assessment validation involves 'reviewing, comparing and evaluating assessment processes, tools and evidence contributing to judgements made by a range of assessors against the same standards'.

What are the benefits

Assessment validation facilitates processes leading to consistent and valid assessment. In particular, validation activities:

- Ensure that assessment strategies meet the needs of clients;
- Facilitate the professional development of assessors;
- Enable enterprises and other stakeholders to contribute to assessment processes;
- Provide a means of gathering feedback and identifying ways of improving assessment processes;
- Facilitate consistent interpretation of competency standards;
- Foster the development of informal networks and provide assessors with access to up-to-date information about what is happening in their industry;
- Help assessors working across the industry to apply consistent standards and make consistent judgements.

These processes build assessors' confidence and industry acceptance of the outcomes of the national training system.

Validation is a quality review process. It involves checking that the assessment tool produced valid, reliable, sufficient, current and authentic evidence to enable reasonable judgements to be made as to whether the requirements of the relevant aspects of the Training Package or accredited course have been met. It includes reviewing and making recommendations for future improvements to the assessment tool, process and / or outcomes. (Source: The Standards for Registered Training Organisations (RTOs) 2015)

Assessment validation includes, but goes beyond, assessment moderation and includes Industry Consultation.

Industry consultation

Those consulted must be current in the industry and the consultation should have a clear impact on the strategy for training and assessment

Validation process

Training and assessment strategies and assessment items are reviewed annually by industry personnel as well other stakeholders, including other trainers and assessors and comments for continual improvements are noted.

Moderation

At Careers Training Centre, moderation is a quality assurance process directed at ensuring that assessments are marked with accuracy, consistency and fairness. Moderation can be effected through several methods and is part of the Quality Assessment Cycle. It includes the entire assessment event, including the design and post-event analysis of the fitness of the assessment of student learning.

Moderation is required for every assessment which involves a degree of subjectivity.

- Assessments are designed so that they are clearly linked to the intended learning outcomes;
- Pre-marking meetings or other activities are undertaken to ensure that assessors are able to clarify their understanding of the assessment criteria;
- Assessment criteria are clearly communicated to students, both in the pre-assessment phase and also when providing feedback; and
- Assessments are subject to regular review: their frequency, style and the relative success rate of students are appraised as a regular part of the improvement cycle

Moderation of Assessment			
Moderation is conducted annually with other trainers and assessors as part of the moderation process. All assessment instruments are reviewed to ensure they are appropriate for the units of competency and reflect information contained in the elements, performance criteria, range of variables and evidence guide.
